Interiors

# Christ Community Chapel

## Market Focus: Hospitality

American Interiors was humbled to work with Christ Community Chapel in Hudson, OH on the renovation of their existing main lobby/commons area. CCC was looking to provide their members with a more inviting space to socialize before and after worship as well as a comfortable place for the community to host outside events. CCC came to American Interiors for a full solution. They asked for our guidance on graphics, finishes and furniture selections and wanted to create a space that was more modern with a cafe/living room aesthetic. The new space has been open since early 2017 and CCC and its members could not be more pleased and inspired with the results.

**Client Testimonial** from: Pete McQuillen, Christ Community Chapel, Hudson, OH

*Dear Melissa,  
On behalf of Christ Community Chapel, I wanted to thank you and your team for the wonderful job you did in our church atrium to make it the warm, inviting place we so wanted it to be! We even named a section of the area the "Living Room" because of the feeling you helped create in that space. We are all about loving God and loving people and your passion and expertise were just what we needed to convey that vision. Your enthusiasm to try new ideas while staying within budget constraints blessed us so much. Hats off to you and team for a job well done!*
