

Achieve Your Sustainability Goals

Mecho products are designed with rigorous sustainability principles to prioritize human and environmental health.

WELL™

**LIVING
BUILDING
CHALLENGE**™

LEED, WELL + Living Building Challenge

Third party building standards continue to push the market as a mechanism to improve the built environment's impact on people and the planet. Mecho continues to lead the market in sustainability-initiatives including:

Material Health Certificates

Product documentation or optimized ingredients to improve human and environmental health.

Product Circularity

Cradle to Cradle Certified shade systems that minimize landfilling and encourage upcycling.

Daylighting

Scalable automated shading systems increase daylight accessibility for improved occupancy health and reduced energy impacts.

Acoustics

A wide array of shade cloth contain NRC values up to .6 that can contribute to optimal sound levels.

Biophilia

Printing images and patterns which emulate nature are shown to reduce occupancy stress.

Touchless Technology

Automation reduces touch points by eliminating chains and switches.

Sustainability Guidelines

Greenguard | Clean Air

These certifications comply with CDPH v1.2 to help identify products and materials that improve indoor air quality with low VOC emissions.

Qualified Products

- All Mecho shade cloth
- Mecho/5x, Mecho/5, and UrbanShade manual shade systems
- WhisperShade IQ2 AC+DC systems (either Greenguard or Clean Air Certification)

HHI Safer Chemicals Program

Provides hospitals with tools and resources to choose health care products that are free from PVC, formaldehyde, antimicrobials, flame retardants, and perfluorinated compounds.

Qualified Products

- EcoVeil Sheer shade cloths

REACH

A regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals.

Qualified Products

- AcoustiVeil, Soho, ThermoVeil, Chelsea, EcoVeil, and EuroTwill shade cloths (shade cloth are also Orthophthalte-free)

Cradle to Cradle

A prestigious multi-attribute certification that encourages products to use healthy ingredients that can be perpetually cycled.

Cradle to Cradle Certified Products

- EcoVeil shade cloths
- Mecho/5x, Mecho/5, and UrbanShade manual shade systems

Material Health Certificate Products

- EcoVeil Sheer, AcoustiVeil, and Chelsea Blackout shade cloths

Declare

A transparency platform and product database that helps determine compliance with the Living Building Challenge.

Qualified Products

- AcoustiVeil, EcoVeil Sheer shade cloths
- Mecho/5x, Mecho/5, and UrbanShade manual shade systems

Health Product Declaration (HPD)

A transparency standard that empowers users to make informed decisions by understanding the health implications of materials.

Qualified Products

- Soho, ThermoVeil, EcoVeil Sheer, EuroTwill and Chelsea Blackout shade cloths
